Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The Examiner acknowledges the response filed October 15, 2009, wherein claims 13-18 are pending.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fruge US Patent Number 5,954,512 in view of Lennox et al. US Patent Number 6,631,904.

Fruge teaches a mountable apparatus (figures 1, 3a, and 4) for assessing a psychological state arising from relationships and for marking a value associated with one or more events or experiences of an individual, the apparatus including a measurement device (10 or 10a), and said measurement device having a scale and a repositionable indicator (26, see column 7, lines 61-67, column 8, lines 1-14; and/or column 9, lines 31-57). Fruge provides qualitative and quantitative values because the scale uses treats, allowances, and bonus stars, and the scale has equidistant spaces which are equivalent to a numerical value.

Fruge lacks a manual but provides example instructions for deductions points from the scale (column 8, lines 8-13). However Lennox et al., a reference in an analogous art, describes using a manual repeatedly to assess point values (fig. 3). It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the instructions of Fruge in

view of written instructions of Lennox et al., since Lennox et al. states doing so creates pre-defined ground rules (column 1, lines 25-29).

Response to Arguments

Applicant's arguments with respect to claims 13-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
